DUR-A-GLAZE #4 WB PRIMER

DESCRIPTION

DUR-A-GLAZE #4 WB PRIMER is a water-borne, two component, epoxy designed to prime concrete floors.

BENEFITS

- Low VOC
- Easy to Use
- Long Pot Life
- Low Odor
- Fast Drying
- Excellent Adhesion

TYPICAL USES

DUR-A-GLAZE #4 WB PRIMER is applied clear using **Dur-A-Glaze #4 Resin.**

As a primer for following epoxy systems:

- DUR-A-GARD
- DUR-A-GARD SL
- DUR-A-QUARTZ
- SHOP FLOOR
- DUR-A-CHIP

LIMITATIONS

This product is designed to be applied at 200 square feet per gallon. Do not apply this product less than 8 mils wet or "out-gassing" can occur.

Do not use this product to "fill" or "level any surface imperfections. Any build up in excess of 12 mils wet film thickness will not cure properly. Not a UV stable product.

This product is best suited for application in temperatures between 60°F and 90°F. Substrate must be clean, sound, and dry.

Excessive relative humidity of greater than 70% will dramatically prevent migration of water. Proper ventilation to move air is recommended.

Do not use as a stand-alone system.

Protect from freezing. If product freezes, heat-thaw, mix with resin and apply according to instructions.

APPLICATION METHOD/SPREAD RATE

Mix 4 parts DUR-A-GLAZE #4 WB PRIMER HARDENER to 1 part DUR-A-GLAZE #4 RESIN.

Recommended spread rate of **200** Sq Ft per gallon mix. Apply with a 1/8" notched squeegee.

Then immediately back roll with a high quality 3/8" nap roller cover. Be sure to check the spread rate as the material is applied.

For proper flow and wetting, maintain DUR-A-GLAZE #4 WB PRIMER at room temperature prior to mixing. The hardener and resin should be thoroughly mixed before combining.

Scrape the bottom and sides of each container. The resin and hardener can then be combined and mixed using a **slow-**speed 450 rpm electric drill with a Jiffler type mixing attachment.

2 coats required depending on concrete surface profile.

SURFACE PREPARATION

This product requires preparation in order to perform as expected. Substrate must be roughened, clean, sound, and dry. Please refer to the Surface Preparation guidelines on our website for more information.

PACKAGING

DUR-A-GLAZE #4 WB PRIMER HARDENER is available in 1-gallon cans, 5-gallon pails and 50-gallon drums.

"Warranties: Seller warrants that its goods, as described on the face hereof, are free from any defects in material or workmanship. Seller makes no other warranty, express or implied, and all implied warranties of merchantability and fitness for a particular purpose are hereby disclaimed. Seller shall not be liable for prospective profits or special indirect or consequential damages. Seller's sole liability and buyer's exclusive remedy for breach of any warranty as expressly limited, at seller's option, to replacement at the original F.O.B. point or refund of purchase price. Seller shall not be responsible for any claim resulting from failure to utilize product in the manner in which it was intended and in accordance with instruction provided for use of product. Any claim for breach of warranty shall be deemed waived unless buyer shall give seller written notice of such claim within sixty (60) days after delivery and shall allow seller reasonable opportunity to investigate claim and inspect product."

DUR-A-GLAZE #4 WB PRIMER

TECHNICAL INFORMATION

Finish:	High Gloss	
Cure Time at 70°F (foot traffic)	6-8 hours	
Pot Life at 90°F:	30 minutes	
Pot Life at 70°F	1 hour	
Pot Life at 60°F	1 1/2 hours	
Re-Coat Window at 70°F	8 -36 Hrs	
Spread Rate, Avg. Concrete:	200 sq. ft./gal. DFT = 5 mils @ 200 ft.	
Mix Ratio:	4 part hardener to 1 part resin	
Color (cured):	Transparent, Clear	
Shelf Life:	1 year, unopened containers	

Physical Property	Test Method	Result
VOC Content		2 g/L
Solids by volume		56 % +/-5%
Flexibility (1/4: Cylindrical mandrel)	ASTM D-1737	Pass
Elongation	ASTM D-2370	9%
Impact Resistance	ML D-2794	>160
Hardness	ASTM D-3363	3H
Abrasion Resistance	ASTM D-4060	
CS17 wheel (1000g load)	1000 Cycles	30 mg loss
Adhesion	ASTM D-4541	550 psi (Concrete Failure)
Coefficient of Friction	ASTM D-2047	>0.6
60 Gloss	ASTM D-523	85+

CAUTION

Follow the Hazardous Materials Identification System labeling guide for proper personal protective equipment to use when handling this product. Use only as directed. KEEP OUT OF REACH OF CHILDREN.

MOISTURE CONCERNS

Please refer to the Floor Evaluation Flow Chart in the Contractor's Center of our website for a step-by-step process to determine the condition of the concrete.

Before using any DUR-A-FLEX, Inc. product, be sure the Material Safety Data Sheet is read and understood.
